Summary of Qualifications

I am a motivated and adaptable **full-stack web developer** with a strong foundation in programming, technical problem-solving, and excellent communication and collaboration abilities. My expertise includes Frontend Development Skills such as HTML5, CSS3, JavaScript, and experience with responsive design principles, CSS frameworks like Bootstrap, and JavaScript libraries and frameworks such as React.js.

On the **backend**, I have basic experience and an understanding of server-side development. While my knowledge of databases is foundational, I have studied MySQL during my academic journey and am eager to expand my expertise in this area.

I am proficient in version control tools like **Git**, **GitHub**, and **GitLab**, and I have a solid grasp of Docker for containerization. My skill set also extends to design tools like Figma, IDEs, and other development tools that enhance productivity and project efficiency.

Throughout my academic journey and project experiences, I have honed **soft skills** such as effective communication, teamwork, and leadership, allowing me to collaborate seamlessly in diverse environments. I am a quick learner, open to feedback, and eager to tackle new challenges in both technical problem-solving and creative project development.

With a commitment to continuous growth and a passion for innovation, I am excited to contribute to impactful projects that push the boundaries of technology and teamwork.

Education

Computer Engineering

Oct 2022

Faculty of Computer Science and Engineering - Skopje

Computer Science and Engineering

Sep 2018 - Jun 2022

O.S.T.U "GOSTIVAR"

Certificates

A1 Academy for Business Analytics

Apr 2024

I recently completed a short academy in Business Analytics, where I gained valuable insights into data analysis, business strategy, and decision-making. Beyond the technical knowledge, the experience allowed me to build meaningful friendships and connect with like-minded individuals, all passionate about the power of data to drive business success.

Game Jem+

Nov 2021

My team and I participated in a video game development competition, where I gained valuable skills in Unity 2D, Unity 3D, and C#. This experience not only strengthened my technical abilities but also enhanced my teamwork and problem-solving skills as we worked together to bring our game to life.
